

## How To Play

All Fire Bet® wagers are \$5.

When making a Fire Bet® wager, place your wager on the numerically marked Fire Bet® circle on the layout, below your betting position.

A Fire Bet® wager will only be accepted prior to the shooter's first "come out" roll.

The dealer will collect the Fire Bet® wagers and place them in their corresponding betting circles in front of the Box person, where they will remain until the bet is won or lost.

Once made, a Fire Bet® wager cannot be called off or taken down.

## Rules of the Game

The object of the bet is for the shooter to make as many "individual points" as possible before the shooter 7's out. "Individual points" means the shooter successfully makes up to 6 separate points and then 7's out. Successfully making the same point more than once will only count as one "individual point" towards the payoff amount.

Only the highest payoff level met will be paid.

"Individual points" do not have to be made in any specific order.

Winning or losing on the "come out" roll will not affect this wager.

Only a "7 out" will terminate the wager.

Special Fire Bet® wager pucks will be used to keep track of "individual points" made.

All winning Fire Bet® wagers will be paid and must be taken down.

Fire Bet® wagers can only be made before the "come out" roll and must accompany a "pass line" wager.
